Portfolio Website: <https://mabashambs.github.io/MabashaPinjari/>

## CAREER OBJECTIVE:

Dedicated and skilled .NET Associate Consultant with around three years of experience in designing, developing, and maintaining robust web applications. Adept at collaborating with cross-functional teams to deliver high-quality software solutions. Seeking opportunities to contribute my expertise in creating scalable and innovative applications.

## PROFESSIONAL SUMMARY:

### Associate Consultant

Capgemini

Pune, India

Sept 2021 - Present

- Designed and implemented high-quality .NET applications using C#, ASP.NET Core, and Web Services.
- Designed responsive user interfaces with HTML, JavaScript and CSS.
- Created stored procedures and other database objects in MS SQL Server.
- Debugged existing code to identify and resolve issues.
- Maintained source control repository of all software development activities.
- Performed system analysis to determine requirements for new features or modifications.
- Integrated third-party APIs into existing applications.
- Optimized performance of existing web services by refactoring codebase.
- Collaborated with business stakeholders to define project scope and timeline requirements.
- Monitored application logs for errors or unexpected behavior patterns.
- Integrated Azure DevOps into the development workflow, automating build and release pipelines for continuous development and deployment. This included setting up CI/CD pipelines, managing deployment environments, and ensuring smooth deployments.
- Actively participated in Agile/Scrum development processes, attending daily stand-ups, sprint planning, and retrospectives.
- Mentored new team members for seamless integration and accelerated learning.
